Art Unit: 1756

1. The examiner acknowledges the amendments to claims 1 and 12, and the cancellation of claims 17-19 set forth in the amendment filed on Nov. 29, 2006. Claims 1-6, 10-13, 16, and 20 are pending.

2. The examiner has considered the copending applications listed on the "List of related cases" filed in the Information Disclosure Statements filed on Nov. 29, 2006, and Dec. 13, 2006.

3. The examiner has crossed-out the references Japanese Patent documents 2002-287400, 2002-287421, 2002-221812, 07-146588, 2000-338709, 2000-172005, and 2002-049220, listed on the form PTO-1449, filed on Oct. 4, 2006, because applicants did not provide copies the said documents. For each of the seven references, applicants only provided copies of a Patent Abstracts of Japan English-language abstract describing the reference and a Japanese Patent Office machine-assisted translation of the claims in the reference.

The examiner has considered the abstract and claims for each of the seven documents. The examiner has properly listed the references under the heading "Non-Patent Documents" on the attached form PTO-892.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Kirsten A. Grüneberg (Reg. No. 47,297) on Feb. 8, 2007.

Claims 1 and 12 have been amended as follows:

In claim 1, at line 4, after the phrase "aqueous liquid" insert the phrase -- to form a dispersion, wherein the dispersion --; and

at line 5, delete the word "which".

In claim 12, at line 6, delete the phrase "aqueous liquid used to prepare said".

Antecedent basis in the originally filed specification for the examiner's amendment to claims 1 and 12 is found at page 11, lines 1-8, and page 40, lines 15-26, and in the examples, e.g., example 1.

Art Unit: 1756

Antecedent basis for the examiner's amendment to claims 1 and 12 is also found in the certified English-language translation of the priority document Japanese Patent Application No. JP2002-347478, filed on May 31, 2005, which is incorporated by reference at page 73, lines 1-4, of the instant specification, at page 31, lines 19-26, and in the examples, e.g., example 1.

5. The examiner's amendment to claim 1 avoids a rejection under 35 U.S.C. 112, second paragraph of claim 2, for lack of antecedent basis for the step of forming the modified polyester (i) in step (A). The examiner's amendment to claim 1 overcomes the rejection of claim 1 under 35 U.S.C. 112, second paragraph set forth in the office action mailed on Aug. 29, 2006. The examiner's amendment to claim 12 provides claim language that is consistent with the disclosure in the instant specification.
